

RACEBIKE STK

FULLY ASSEMBLED AND RACE-READY MOTORCYCLE BY ALPHA RACING.
MODEL RC-STK-M (MY23)

TECHNICAL DATA

Capacity/engine	999cc, water/oil-cooled 4-cylinder with 4-stroke in-line engine, four titanium valves per cylinder and BMW ShiftCam, by BMW Motorrad
Frame	Aluminum composite bridge frame, partially self-supporting engine, by BMW Motorrad
Output	156 kW (212 hp) at 14,500 rpm
Bore x Hub	80 x 49.7 mm
Compression ratio	13.5:1
Gearbox	Constant-mesh 6-speed gearbox with straight cut gears
Electronics	M Race Calibration Kit, by BMW Motorrad Motorsport
Tank capacity	16.5 l
Lubrication	Wet sump
Dry weight	165 kg
Wheelbase	1,457 mm
Length	2,085 mm
Width	640 mm
Front wheel control	Upside-down telescopic fork, Öhlins TTX25 cartridge kit
Rear wheel control	Underslung swing arm, full-floater central spring strut Öhlins TTX GP
Front brake	Dual floating disc brakes, 4-piston fixed calipers, diameter 320 mm
Rear brake	Single disc brake, diameter 220 mm, 2-piston fixed caliper
Exhaust system	Akrapovic 4:2:1 Racing exhaust system
Wheels	PVM forged wheels
Tyres	Pirelli Diablo SBK Slicks

RACEBIKE STK

OPTIONAL EQUIPMENT AND SERVICE PACKAGES.
MODEL RC-STK-M (MY23)

SPECIAL EQUIPMENT

Performance Package

The Performance Package contains optimized racing components for improved engine performance. The air intake is a direct development from the BMW Motorrad WorldSBK team and ensures an improved air flow to the airbox, together with the specially developed BMC air filter, there is a significant increase in engine performance. The package is complemented by a finely working, modified racing clutch, which offers a more direct response and less stroke of the clutch hubs as well as a race optimized clutch cable kit.

- Air intake kit SBK
- Racing air filter type D, by BMC Air Filter
- Race clutch (modified OEM)
- Clutch cable kit Motorsport

+ 2.050,00 € net.

Pro Race Package

The Pro Race Package offers racing-optimized components that improve handling and longevity on the racetrack. The gear position sensor, the vibro polished quick release axles and the special linkage bolt for the swing arm linkage are designed for increased durability and performance. The practical quick release kit for the rear thru axle and the fuel drain kit make working on the bike easier and more efficient.

- Racing gear position sensor
- Quick release rear and front axle
- Quick release kit, for front and rear axle
- Special bolt linkage
- Fuel drain kit

+ 700,00 € net.

Sensor Package

The Sensor Package contains high quality sensors for suspension and brake pressure that are specifically tailored to racetrack use. This forms the basis for a professional analysis of suspension elements and riding dynamics. The suspension sensors from 2D are race-tested and are installed in lengths of 175/100 mm (front/rear). The brake pressure sensors for the front and rear brakes are also from 2D. All sensors are adapted to the motorsport kit wiring harness of the M Race Calibration Kit.

- Linear potentiometer front & rear, by 2D
- Brake pressure sensors front & rear, by 2D
- Assembly material

+ 1.850,00 € net.

Carbon Package

The Carbon Package wraps the bike in high-quality carbon. All bodywork components are replaced by aerodynamically optimized prepreg carbon parts. The perfect weight-to-strength ratio ensures increased protection for parts that are sensitive to falls, as well as increased performance thanks to the weight savings.

- Carbon bodywork kit
- Carbon front fender
- Carbon airbox cover
- Carbon race tail incl. seat

+ 3.200,00 € net.

UPGRADE OPTIONS

Race clutch by BMW Motorrad Motorsport

+ 1.504,20 € net.

Carbon protection kit (frame & swingarm)

+ 530,00 € net.

Aero Wheel Cover Kit

+ 999,00 € net.

RACEBIKE STK

OPTIONAL EQUIPMENT AND SERVICE PACKAGES.
MODEL RC-STK-M (MY23)

ADDITIONAL EQUIPMENT

Pitbox Package

The package contains many practical service products for use on site at the racetrack. In addition to the interface components for the bike electronics, the package includes special tools for setting the bike geometry, a high-quality tyre warmer set, assembly bike stands and other accessories for the perfect appearance in the pitbox.

- M Race Calibration Kit Interface Module
- Enet interface cable for Motec dashboard, Ethernet/OBD2
- Front bike stand
- Footrest support stand kit
- Ride height tool kit
- Handlebar tool
- Laptop support tool
- Assembly assistance front axle
- Tyre warmer kit >EVO< Superbike
- Bike carpet
- Bike cover

+ 1.850,00 € net.

Drive Train Package

The Drive Train Package offers a variety of transmission options (final drive) for different racetracks and driving styles. The package includes three different chain sprockets (15-17) and aluminum sprockets from 40 to 46 teeth. Also included are an additional racing chain from D.I.D pitch 520, a matching chain lock and a sprocket lock washer.

- Front sprockets, T= 15/16/17
- Rear sprockets, T= 40/41/42/43/44/45/46
- D.I.D racing chain 520
- 5x D.I.D master link
- 5x Sprocket lock washer

+ 550,00 € net.

Spare Wheels Package OZ Motorbike

The Spare Wheels Package offers a complete set of replacement wheels from OZ Motorbike. The aluminum wheels are delivered pre-assembled and are equipped with brake discs, sensor rings for the wheel speed and sprocket carrier. A set of aluminium sprockets from 41 to 45 teeth completes the package and allows a wide variety of transmission options.

- OZ Motorbike Gass SBK wheel set 3,5"/6,0" x 17"
- Brake discs front, 320 x 7 mm
- Brake disc rear, 220 x 4 mm
- Rear sprockets, T= 41/42/43/44/45 (for OZ Motorbike wheels)
- Wheel speed sensor rings
- Assembly material

+ 3.200,00 € net.

Spare Wheels Package PVM

The Spare Wheels Package offers a complete set of replacement wheels from PVM. The aluminum wheels are delivered pre-assembled and are equipped with brake discs, sensor rings for the wheel speed and sprocket carrier. A set of aluminium sprockets from 41 to 45 teeth completes the package and allows a wide variety of transmission options.

- PVM 3V Design wheel set 3,5"/6,0" x 17"
- Brake discs front, 320 x 7 mm
- Brake disc rear, 220 x 4 mm
- Rear sprockets, T= 41/42/43/44/45 (for PVM wheels)
- Wheel speed sensor rings
- Assembly material

+ 3.200,00 € net.

RACEBIKE STK

OPTIONAL EQUIPMENT AND SERVICE PACKAGES.
MODEL RC-STK-M (MY23)

ADDITIONAL EQUIPMENT

Spare Wheels Package BMW M Carbon

The Spare Wheels Package offers a complete set of BMW Motorrad M Carbon wheels. The wheels are delivered pre-assembled and are equipped with brake discs, sensor rings for the wheel speed and sprocket carrier. A set of aluminium sprockets from 41 to 45 teeth completes the package and allows a wide variety of transmission options.

- BMW M Carbon wheel set 3,5"/6,0" x 17"
- Brake discs front, 320 x 7 mm
- Brake disc rear, 220 x 4 mm
- Rear sprockets, T= 41/42/43/44/45 (for BMW M Carbon wheels)
- Wheel speed sensor rings
- Assembly material

+ 4.500,00 € net.

SERVICE PACKAGES

Setup Package

This service package includes an individually tailored racebike and an introduction to the software management of the M Race Calibration Kit. Personal training to the extensive motorsport kit electronics (M RCK) as well as a mapping individually tailored to the customer. In addition, the suspension elements and the ride height are adapted to the rider.

- M Race Calibration Kit training
- Individual ECU mapping
- Suspension setup
- Ride height setup

+ 800,00 € net.
